Summary

Full-stack engineer who builds web, mobile and desktop apps end to end (NestJS, .NET, React, Next.js, React Native, Electron). I've shipped fintech, blockchain and AI products for clients in the UK, France, Canada and the UAE.

Experience

ElkTech — Associate Software Engineer Jan 2026 – Present

- **Kira AI**: AI assistant for web, desktop, iOS and Android (5-person team), showcased at the Dubai AI Festival. *NestJS, Prisma, PostgreSQL, Redis/BullMQ, React, React Native, Electron.*
  - **Payments:** built Kira Pay, the in-app wallet, end to end: transfers, payouts, payment links, cards and KYC on an append-only double-entry ledger, connected to the Ellicash gateway through webhooks.
  - **Agent workflows:** project boards and a sales CRM with saved views, custom fields, sprints, forms, pipelines, automations and follow-up email sequences, where AI agents work on tickets.
  - **Verifiable AI actions:** every agent action gets a receipt in a Merkle log stamped on Base (Ethereum L2), shown in a live ledger UI in 4 languages and verifiable on Basescan.
  - **Mobile:** 10+ features in the React Native app (AI Lawyer, AI Shopping, Homework, Business Cards with QR sharing, AI receptionist, Kira Code), wallet screens rebuilt from Figma, iPad layouts and lazy-loaded screens.
  - **Desktop & privacy:** the Electron app's offline mode, and per-person data isolation enforced at the query layer.
- **Naito**: Instagram Reels analytics web app for a French client. As main developer, built the React/Vite frontend and the Python API, with Playwright end-to-end tests, deployed with Docker, Nginx and PostgreSQL.
- **Helpath**: platform for UK domestic-abuse refuges (rooms, cases, support); built features in Next.js and NestJS.

US Mobile — Product Support Engineer Oct 2025 – Dec 2025

- Resolved connectivity and account issues for 4+ customers at once with a 98.2% CSAT and 92.8% quality score.
- Traced root causes of network and account bugs for Product and Engineering; ranked 2nd of 20 in training.

Big Entities — Software Engineering Intern Jul 2025 – Oct 2025

- Backend engineer (.NET Core) on **FieldForce AI**, a task and analytics platform used by 2,000+ staff at Pharmasol and Biocare Pharmaceuticals, and **Healers**, a Canadian telehealth app for booking physicians in person or online.
- Built features and fixed bugs in the APIs behind their React web apps and mobile apps, managed their SQL Server and PostgreSQL databases, and released through Dev → QA → UAT → Prod.

Clicksotic — Front End Developer Mar 2024 – Feb 2025

- Built the frontends for the Caroline School of Law website (WordPress) and its learning management system (React, Django, PostgreSQL), with role-based dashboards and controlled file access.
- Built the React frontend for **DripSaint**, a custom-apparel store, including its AI print designer and Stripe checkout.

Exputer — Gaming Content Writer (Part-time) Jul 2023 – Aug 2024

- Published 30+ game guides on Fortnite, LEGO Fortnite and Minecraft, and moderated the site's forums.

Projects

- **Decentralized Learning Platform** (*React, Node.js, MongoDB, Solidity*): course marketplace where Ethereum smart contracts handle purchases and enrollment via MetaMask; course data lives in MongoDB.
- **ObscuraNet** (Final Year Project, team of 4; *Python*): serverless P2P messaging with onion routing, ChaCha20-Poly1305 and proof-of-work Sybil resistance; tested on 100 Docker nodes, under 2 s delivery.

Technical Skills

- **Languages:** TypeScript, JavaScript, C#, Python, SQL, Solidity, HTML, CSS
- **Frontend & Mobile:** React, Next.js, Angular, Vite, Tailwind CSS, TanStack Query, React Native (Expo), Electron
- **Backend:** NestJS, Node.js, Express, .NET / ASP.NET Core, Django, FastAPI, REST APIs, Socket.io, SSE
- **Data & DevOps:** PostgreSQL, SQL Server, MongoDB, Prisma, Redis, BullMQ, Docker, Nginx, AWS S3, Git
- **Integrations & Testing:** Stripe, Twilio, viem (Ethereum), Playwright, Jest
- **Tools:** Claude Code, Codex, Figma, Agile/Scrum **Spoken:** English, Urdu (both fluent)

Education

Forman Christian College (A Chartered University), Lahore — BS Computer Science 2021 – 2025

Awards & Leadership

- 1st of 80, FCCU GDSC Programming Competition (2023); Best Project nominee, FCCU COMSPEX (2025)
- Co-Lead, Registration Team, Ignite FCCU (2023); Lead, Registration Team, Omnilife VR/AR Society (2022)
